41.3 in
1,050 mm

01
Built for tight aisles

Our most compact model. Dual centre-mounted rear wheels give superior manoeuvrability in confined spaces.

02
Versatile, cost-effective

A 3,500 lb capacity and 14.8 ft of lift deliver consistent performance across warehouses and facilities.

03
Durable & low-maintenance

A rugged frame, heavy-duty solid tires and a battery that never needs watering or fluid checks.

MAST	Single
OPERATOR SEAT	Open

Manoeuvrability & maintenance

Dual rear wheels
Centre-mounted

Unlike standard four-corner forklifts, the rear wheels sit at the centre — superior manoeuvrability for very tight aisles.

No watering
Maintenance-free battery

The battery system needs no watering or regular fluid checks, reducing maintenance and operator error.

Refer to the unit’s data plate for exact ratings.

COMPACT SINGLE-MAST FRAME

Warranty, service & support

Warranty

1-year comprehensive. Covers the frame, drivetrain, hydraulics and other major components.

3-year battery. A separate warranty on the battery.

Extended, $1,800 / year. The same comprehensive coverage as the standard warranty.

After warranty. Parts and service continue at cost, with minimal additional charges.

Parts availability

Stocked. All parts are held at our Abbotsford warehouse.

~95% sourced locally. Most parts can also be found close to you.

Service

In-house technicians. Full-time, available weekdays and weekends.

1–2 hour response. Typical time from service call to arrival on-site.

Loaner forklift. Provided immediately if a repair can't be completed quickly.

Service partners. Third-party partners, including NNK Equipment, step in if our team is fully booked.

Compliance & insurance

$10M liability insurance. Commercial General Liability coverage on our forklifts; documents on request.

WorkSafeBC. Inspected at many client sites — every forklift has passed.

Commercial

Trade-in upgrades
Move up to a heavier-duty or higher-capacity model within the first year. Value confirmed at time of upgrade.
